AI governance, cyber and privacy

Dawn Horizon helps boards and leadership teams use AI safely, meet the rules that now apply to them, and show the evidence to customers, auditors and regulators.

We build governance as one management system, not a folder of policies. A charter sits at the top, with policies, processes and records your people run. Every engagement hands you assets you own, with 12 months of support as the rules change.

FOUR PACKAGES, BOUGHT SEPARATELY OR TOGETHER

01 Training and strategy — EU AI ACT · NIS2 · DORA
Your board learns its duties, then gets a costed AI and cyber roadmap.

02 AI compliance and standards — EU AI ACT · ISO/IEC 42001 · EN 18286
Readiness for the AI Act, and quality systems for providers of high-risk AI.

03 Security compliance and standards — ISO/IEC 27001 · NIS2 · DORA · CRA
Readiness for customers and regulators, through to ISO/IEC 27001 certification.

04 Fractional roles — SECURITY AND AI LEADS
A chief information security officer, head of AI, or both, from two days a month.

DATES THAT MATTER

2 December 2027
High-risk AI under Annex III: recruitment, education, credit, insurance pricing.

17 January 2028
The Digital Operational Resilience Act (DORA) applies to Irish credit unions.

2 August 2028
AI in medical devices and other regulated products under Annex I.

INDEPENDENT, IN IRELAND, ACROSS EUROPE

No vendor pays us, so our advice stays neutral. Clients across the EU, the UK, the United States and South Africa.

ALSO FROM DAWN HORIZON

Data protection and privacy, with a fractional data protection officer (DPO) · Audit and assurance · Procurement · Keynotes · Board Risk workshops

HOW WE WORK
One set of controls, mapped to every obligation

WHO WE WORK WITH
Medtech, financial services, critical infrastructure, AI products

LED BY
Lee Bristow, ISO/IEC 27001 and ISO/IEC 42001 Lead Auditor

Start with a 30-minute briefing, at no charge.
